**Re: Duke Energy Progress, LLC Western Carolinas Modernization Project
Status Update
Docket No. E-2, Sub 1089**

Dear Ms. Campbell:

As a follow-up to the progress report filed on March 30, 2020 in connection with the referenced matter, I write on behalf of Duke Energy Progress, LLC (“DEP”) to update the North Carolina Utilities Commission (the “Commission”) on the status of the two-unit Asheville Combined Cycle Project approved by the Commission in its March 28, 2016 *Order Granting Application in Part, with Conditions, and Denying Application in Part*. The expected operability of the Power Block 2 Combustion Turbine Unit 7 on fuel oil has been delayed from April 30, 2020 to May 15, 2020 due to a change in timing for the outage needed to replace the affected hardware. As previously reported to the Commission, Combustion Turbine Unit 7 went into commercial operation on natural gas on January 15, 2020.

Thank you for your attention to this matter. If you have any questions, please let me know.

Sincerely,

Lawrence B. Somers
