Dear Sir:

Subj: In the Matter of Area Code Relief for N.C.'s
336 Numbering Plan Area – Docket No. P-100 Sub 137C

In regard to the above subject, I advocate using the "distributed overlay" plan for the 336 area code. Dialing 10 digits takes a little more time but then most people now program their calls into their phone and they probably won't even notice any time difference. I've used this system in other populated areas and it's better than using a split system with two different area codes because you must determine which area has a different area code assigned.

Sincerely,

Nancy Hobson
