Clerk's Office  
N.C. Utilities Commission

To whom it may concern:

I am writing to express concern over the smart-meter opt-out tariffs as proposed by Duke Energy. I am fully aware of the problems associated with such meters and experienced severe reactions to similar EMF-emitting equipment after installing a Bluetooth antenna on our computer. I would encourage you to oppose any smart-meter opt-out tariffs as proposed by Duke Energy and allow citizens to avoid the damage incurred by having meters nearby without undue financial burden.

Regards,  
Scott Forney  
Louisburg, NC
