**RE: Docket No. E-100, Sub 158 - Biennial Determination of Avoided Cost Rates for Electric Utility Purchases from Qualifying Facilities – 2018 Reply to Duke Energy Response to Order Requiring Additional Information**

Dear Ms. Campbell:

On March 29, 2021, the Commission issued an *Order Requiring Additional Information* in this 2018 biennial avoided cost proceeding, Docket No. E-100, Sub 158, and in the interconnection proceeding in Docket No. E-100, Sub 101. The Order required Duke Energy Carolinas, LLC and Duke Energy Progress, LLC (collectively “Duke”) to provide, by April 13, 2021, additional information in response to two questions posed by the Commission in its Order. The Order permitted other parties to respond to the same questions on or before April 27, 2021.

The Carolinas Clean Energy Business Association (“CCEBA”) notes that the Southern Alliance for Clean Energy (“SACE”) and the North Carolina Sustainable Energy Association (“NCSEA”) filed comments of Brendan Kirby, P.E. on April 27, 2021. In lieu of comments, CCEBA files this letter in support of the comments of Mr. Kirby presented by SACE and NCSEA.
