Re: Docket No. EMP-104, Sub 0, Fern Solar LLC's Application for a Certificate of Public Convenience and Necessity to Construct a Merchant Plant – Site Description

Dear Ms. Jarvis:

Please see below an updated site description for the Fern Solar project, for purposes of providing public notice:

The Fern Solar project site is located on non-contiguous parcels of land generally between Battleboro-Leggett Road (S.R. 1407), Cool Spring Road (S.R. 1406), and Speights Chapel Road (S.R. 1409), approximately 3.2 miles northeast of Rocky Mount and 6.7 miles northwest of Tarboro, North Carolina. The site layout primarily travels behind existing farm operations and natural vegetative buffers, such that the only place where the site is visible from the road is along Morning Star Church Road where vegetative screening will be planted.

Thank you for your assistance. Please contact me if you have any questions.

Sincerely,

Benjamin L. Snowden
