Clerk's Office  
N.C. Utilities Commission

Dear Chief Clerk of NC Utilities Commission:

I am opposed to the Wilkinson Solar, LLC Solar Facility in Terra Ceia, NC. (Docket #EMP-93 Sub0)

The amendment to the original map comes as a surprise to the citizens of this community. Please dedicate close attention to this south expansion and the forever effects it will have on this community. The impacts on the Terra Ceia and Delta City communities are vast. I attended a recent Beaufort County Commissioners meeting and heard firsthand from the Delta City community the problems they currently face with flooding and their concerns of flooding only worsening with the installation of Wilkinson Solar, LLC.

There are numerous reasons for a public hearing, but I feel the environmental impacts on drainage alone create the need.

Please consider a public hearing. Thank you for your time.

Sincerely,

Myra Beasley  
24515 NC Hwy 32 N.  
Plymouth, NC 27962

Dear Chief Clear of NC Utilities Commission:

I am opposed to the Wilkinson Solar, LLC Solar Facility in Terra Ceia, NC. (Docket #EMP-93 Sub0)

The amendment to the original map once again comes as a surprise to the citizens of this community. With little time to react we petition you with requests to dedicate close attention to this south expansion and the forever effects it will have on this community.

- The additional acreage will negatively impact property values of nearby homeowners.
- This additional acreage necessitates additional investigation by the Clearinghouse.
- The additional acreage demonstrates another close door deal that affects an entire community.
- The additional acreage will impede on the daily life of Terra Ceia and the people who find it a place of work, school, and worship.
- The additional acreage will further impact the agricultural community by taking additional acres out of production and effect agricultural support services.

Requesting a public hearing, the people of body and spirit who call Terra Ceia home request a platform to voice concern.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Bauley". The signature is written in a cursive style with a long, sweeping underline that extends to the right.

Dear Chief Clerk of NC Utilities Commission:

I am opposed to the Wilkinson Solar, LLC Solar Facility in Terra Ceia, NC. (Docket #EMP-93 Sub0)

The amendment to the original map comes as a surprise to the citizens of this community. Please dedicate close attention to this south expansion and the forever effects it will have on this community. The impacts on the Terra Ceia and Delta City communities are vast. This community is once again threatened. There are numerous reasons for a public hearing. A few examples are below:

- Environmental impacts on drainage
- Peat Fires
- Loss of feeding grounds for migratory birds, such as Tundra Swans
- Removal of prime farmland from agricultural production
- Economic loss of agricultural services
- Loss of over 50 seasonal farm jobs
- Facility clean up (Who is responsible?)

Please consider a public hearing. Thank you for your time.

Sincerely,

Kristina V. Beasley  

December 8, 2017

Dear Chief Clerk of NC Utilities Commission:

As a concerned citizen of Beaufort County, I am opposed to the Wilkinson Solar, LLC Solar Facility in Terra Ceia, NC. (Docket #EMP-93 Sub0)

The amendment to the original map comes as a surprise to the citizens of this community. Please dedicate close attention to this south expansion and the forever effects it will have on this community. The impacts on the local community are vast, but the tax revenue loss from the installation of the solar panels will be felt throughout the county. The loss of farm revenue from the land being taken out of production will be felt throughout the county. Environmental impacts on drainage must be properly addressed.

Please consider a public hearing. Thank you for your time.

Sincerely,

A handwritten signature in black ink that reads "Jerry Beasley". The signature is written in a cursive style with a large, sweeping initial "J".

Jerry Beasley

Dear Chief Clerk of NC Utilities Commission:

I am opposed to the Wilkinson Solar, LLC Solar Facility in Terra Ceia, NC. (Docket #EMP-93 Sub0)

The amendment to the original map comes as a surprise to the citizens of this community. Please dedicate close attention to this south expansion and the forever effects it will have on this community. The impacts on the Terra Ceia and Delta City communities are vast. There are numerous reasons for a public hearing. A few examples are below:

-Environmental impacts on drainage

-Peat Fires

-Loss of feeding grounds for migratory birds, such as Tundra Swans (Why should the state of NC sacrifice the feeding grounds of the Tundra Swans and other migratory birds for those living outside our state wanting to purchase renewable energy credits.)

-Economic loss

Please consider a public hearing. Thank you for your time.

Sincerely,

Roger Forrest

Dear Chief Clear of NC Utilities Commission:

I am opposed to the Wilkinson Solar, LLC Solar Facility in Terra Ceia, NC. (Docket #EMP-93 Sub0)  
The amendment to the original map comes as a surprise to the citizens of this community.  
Please dedicate close attention to this south expansion and the forever effects it will have on  
this community. The impacts on the Terra Ceia and Delta City communities are vast.

I sent my son to Terra Ceia Christian school close to 30 years ago and the trip into school each  
day was one of beauty and tranquility; however, the problems that Wilkinson Solar, LLC Facility  
will create for the Terra Ceia Community and the county far surpass aesthetics.

There are numerous reasons for a public hearing. A few examples are below:

- Environmental impacts on drainage
- Peat Fires
- Loss of feeding grounds for migratory birds, such as Tundra Swans
- Economic loss

Please consider a public hearing. Thank you for your time.

Sincerely,

Brenda Forrest
