DOCKET NO. E-2, SUB 1300

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of
Application of Duke Energy Progress, LLC, for) ORDER APPROVING REVENUE
Adjustment of Rates and Charges Applicable to) REQUIREMENT, RATE SCHEDULES,
Electric Service in North Carolina and) AND NOTICE TO CUSTOMERS OF
Performance-Based Regulation) CHANGE IN RATES

BY THE COMMISSION: On August 18, 2023, the Commission issued an Order Accepting Stipulations, Granting Partial Rate Increase, and Requiring Customer Notice (Rate Order) in the above-captioned docket authorizing Duke Energy Progress, LLC (DEP), to adjust its rates and charges for retail electric service in North Carolina. The Rate Order, among other things, directed DEP to file for Commission approval a proposed Notice to Customers informing its customers of the rate changes.

On August 28 and September 15, 2023, DEP filed several exhibits demonstrating its calculations of base and total revenues, rate schedules, and other calculations (rate schedules), as well as a proposed Notice to Customers (collectively compliance filings). DEP stated that the Public Staff had verified the accuracy of the calculations and had also reviewed and approved the proposed Notice to Customers.

On September 19, 2023, the Public Staff filed a letter stating that it had worked with DEP on the compliance filings and does not object to approval of the compliance filings, including the Notice to Customers.

Based on a review of the compliance filings and the record, the Commission finds good cause to approve the revenue requirement and the rate schedules, and to authorize DEP to implement its new rates pursuant to the Rate Order for service rendered on and after October 1, 2023. In addition, the Commission finds good cause to approve the Notice

to Customers in the form attached hereto as Appendix A, and to direct that DEP give notice of the rate changes to its customers in compliance with the Rate Order.

IT IS, THEREFORE, SO ORDERED.

ISSUED BY ORDER OF THE COMMISSION.

This the 21st day of September, 2023.

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of
Application of Duke Energy Progress, LLC, for)
Adjustment of Rates and Charges Applicable to) NOTICE TO CUSTOMERS OF
Electric Service in North Carolina and) CHANGE IN RATES
Performance-Based Regulation)

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission (Commission) entered an Order on August 18, 2023, in Docket No. E-2, Sub 1300, after public hearing, approving an increase in the annual non-fuel base revenues from rates and charges paid by retail customers of Duke Energy Progress, LLC (DEP) in North Carolina. In the Order, the Commission also approved Performance-Based Regulation (PBR) for DEP including a Multiyear Rate Plan (MYRP), which provides for annual base rate increases over a three-year period, effective October 1 of each year (2023 – 2025), to reflect costs and savings associated with discrete and identifiable capital investments projected to be used and useful during the course of the three-year period. The increase approved by the Commission and calculated herein is the increase from rates that were in effect as of the end of the test period for the rate case (December 31, 2021), updated for certain known changes in revenue, expenses, and rate base through March 31, 2023. The Commission approved an increase in base rate service revenues of \$245.7 million in Rate Year 1 (including the traditional general rate case increase of \$148.2 million and \$97.6 million for MYRP projects in Year 1, effective October 1, 2023 through September 30, 2024); base service revenues of \$368.6 million (incremental change of \$122.9 million to Rate Year 1) in Rate Year 2, effective October 1, 2024 through September 30, 2025; and base service revenues of \$503.8 million (incremental change of \$135.2 million to Rate Year 2) in Rate Year 3, effective October 1, 2025 through such time as new rates are approved by the Commission.

The following table shows the base rate increases by Rate Class for each year of the MYRP:

Rate Class	Present Base Revenues* (In Thousands)	Present Base Revenues, Including Riders** (In Thousands)	Interim Base Revenue Increase (In Thousands)	Interim Base Revenue Increase Percentage	Rate Year 1 Base Revenue Increase (In Thousands)	Rate Year 1 Base Revenue Increase Percentage	Rate Year 2 Base Revenue Increase (In Thousands)	Rate Year 2 Base Revenue Increase Percentage	Rate Year 3 Base Revenue Increase (In Thousands)	Rate Year 3 Base Revenue Increase Percentage

**Present riders include Fuel EMF, DSM, EE, EDIT-3, EDIT-4, Joint Agency Asset, and Competitive Procurement of Renewable Energy clause rates. EDIT-3 was included as it was active when the rate case was initially filed.

When comparing to the present rate base revenues inclusive of rider revenues, the non-fuel base rate increase will be partially offset by an additional decrement to the existing Excess Deferred Income Tax (EDIT-4) Rider of \$8.5 million and the one-year only Regulatory Asset and Liability (RAL) Rider of \$3.2 million in the first year, will be a net overall increase of \$234.0 million or approximately 5.8%. In the second year, the base rate increase after partially offset by the decrement to the EDIT-4 Rider of \$8.5 million, will be a net overall increase of \$360.2 million or approximately 9.0% (incremental 3.0%). In the third year, the base rate increase after partially offset by the decrement to the EDIT-4 Rider of \$5.7 million through May 2026, will be a net overall increase of \$498.2 million or approximately 12.4% (incremental 3.2%).

Based on rates and riders effective October 1, 2023, the annualized impact of these changes on a typical 1,000 kWh residential customer is as follows for each Rate Year:

	Pre-Interim	Interim	RY1	RY2	RY3
Annualized Typical Bill - 1,000 kWh	\$138.21	\$144.12	\$152.16	\$156.83	\$161.98
Incremental \$ Change	-	\$5.91	\$8.04	\$4.67	\$5.15
Incremental % Change	-	4.3%	5.6%	3.1%	3.3%
Total \$ Change	-	\$5.91	\$13.95	\$18.62	\$23.77
Total % Change	-	4.3%	10.1%	13.5%	17.2%

As a part of this rate change, the Commission approved the Revenue Requirement settlement and Performance Incentive Mechanism (PIMs) settlement between DEP, the

Public Staff – North Carolina Utilities Commission (Public Staff), and Carolina Industrial Group for Fair Utility Rates II. The Revenue Requirement settlement resolved most of the revenue requirement issues among the stipulating parties. The PIMs settlement provides for three PIMs, three tracking metrics, and a process for DEP to work with the Public Staff to develop tariffs and programs to estimate and update revenue associated with electric vehicles.

The Commission also approved a Customer Assistance Program (CAP) for eligible low-income customers and the associated CAP Rider and Customer Assistance Recovery Rider.

END OF TEMPORARY RATE CHANGE

On June 1, 2023, DEP increased rates and charges on a temporary basis, subject to refund, pursuant to the authority granted to the Company in N.C. Gen. Stat. § 62-135. The temporary increase reflected an increase in base revenues of approximately \$87 million annually. The temporary rate changes that were set forth on June 1, 2023, were not final rates and were subject to the Commission's final determination of the just and reasonable rates to be charged by DEP on a permanent basis.

Consistent with the Commission's Order approving the permanent base revenues, the Company has recalculated the temporary rates revenue requirement. The Company's analysis, rounding to the nearest thousand dollars, indicates no refund of the amounts collected through temporary rates is required for the rate classes. The calculations and supporting schedules were reviewed by the Public Staff. The Public Staff agrees that no refund is due.
