**REVISED APPLICATION TO INTERVENE OF  
THE UNITED STATES DEPARTMENT OF DEFENSE AND ALL OTHER FEDERAL  
EXECUTIVE AGENCIES**

The United States Department of Defense and all other Federal Executive Agencies (“DOD/FEA”), hereby petitions the State of North Carolina Utilities Commission (“Commission”) for leave to intervene in the above-captioned proceeding. DOD/FEA has a direct and significant interest in this proceeding. This application to intervene is filed pursuant to Rules R1-5, R1-7, and R1-19, and the Commission’s January 17, 2024 *Order Scheduling Public Hearings, Establishing Interventions And Testimony Due Dates And Discovery Guidelines, Requiring Public Notice, And Providing Direction Regarding Duke’s Supplemental Modeling* in Docket No. E-100, SUB 190. In support of this Motion, DOD/FEA states as follows:

## I

DOD/FEA will be represented by, with all documents served upon and all communications referred to, its duly authorized representative pursuant to 40 U.S.C. § 501(c), United States Army Legal Services Agency employee:

John J. McNutt<sup>1</sup>  
Regulatory Law Counsel  
U.S. Army Legal Services Agency  
Office of The Judge Advocate General  
9275 Gunston Road  
Fort Belvoir, VA 22060-4446  
Telephone: (619) 302-9642  
Email: john.j.mcnett.civ@army.mil  
District of Columbia Bar No. 491341

## II

DOD/FEA maintains certain military installations and civilian agency activities within the State of North Carolina, many of which obtain electric service from Duke Energy Progress and Duke Energy Carolinas (“the Companies”). On January 31, 2024, the Companies filed an amended petition for approval of its 2023-2024 Carbon Plan and Integrated Resource Plan in Docket No. E-100, Sub 190. DOD/FEA has an interest in this proceeding, as the proportion of the Companies’ resource mix that is served by carbon-emitting resources versus the proportion served by carbon-pollution free electricity (CFE) will have an impact on DOD/FEA’s ability to meet its obligations under Section 203 of Executive Order 14057, *Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability*.<sup>2</sup> DOD/FEA has a further interest as the scope and cost of the proposed additional generation assets will impact DOD/FEA’s future rates.

<sup>1</sup> Mr. McNutt is filing a Verified Motion for Limited Practice along with this Application. Mr. McNutt has local counsel admitted to practice in North Carolina. Mr. McNutt will pay the required fees for admittance.

<sup>2</sup> *Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability*, 86 Fed. Reg. 70,935 (Dec. 13, 2021) (E.O. No. 14057), available at <https://www.govinfo.gov/content/pkg/FR-2021-12-13/pdf/2021-27114.pdf>.

### III

DOD/FEA purchases large amounts of electricity from DEP in North Carolina. DOD installations served by DEP include, but are not limited to, Fort Liberty, Marine Corps Base Camp Lejeune, Seymour Johnson Air Force Base, and Marine Corps Air Station Cherry Point.

### IV

The interests of DOD/FEA are such that they cannot be adequately protected by any other party. DOD's national security mission, the unique load profiles of its major installations, and the military's continuing mandate to acquire resiliency resources for its bases are all factors supporting DOD's position that its interests are unique and cannot be represented in this proceeding by any other party.

### V

DOD/FEA's intervention and participation herein will not unreasonably broaden the issues, burden the record, unduly affect the rights of participating parties, or unreasonably delay the proceedings. DOD/FEA accepts the procedural schedule as already determined by the Commission. No party should be prejudiced by DOD/FEA's application to intervene.

### VI

Pursuant to Commission Rule R1-39, DOD/FEA agrees to electronic service of all pleadings and other filings in this matter.

**WHEREFORE**, The United States Department of Defense and all other Federal Executive Agencies petitions the Commission for leave to intervene in the captioned proceeding.
