Docket

E-100 Sub 190

Message

NC Utilities Commission, North Carolina is past due for a shift in the profit-driven monopoly mindset that increasingly harms communities, drives up power bills, and makes the climate crisis worse. Many experts agree that local solar-plus-storage is the best tool we have to address the climate crisis. It is clear that the only way North Carolina can finally get aligned with the climate scientists is to rapidly expand local solar. All Duke Energy's residential, commercial and nonprofit customers can share in the costs and benefits of local solar much like we currently pay for polluting power plants – through the electric rate system.

STOP helping Duke destroy our future!!! Don't you have children or grandchildren or loved ones that you care about?? Duke is guaranteeing that we will NOT have a decent quality of life in 10 years, and everyone under 30 will die of something other than old age! Yes, it really is THAT serious. PLEASE. STOP DUKE once and for all.
