E-7 Sub 1214

Message

I'm not in favor of building new plants or raising our electricity rates so drastically to pay for a polluting new plant. We to invest in renewables and invest wisely in a clean energy future. There are creative ways to avoid building this kind of plant and charging the public for it. I highly disagree with this plan, as do my family members and neighbors. It's shameful to gouge people in the middle of a pandemic because they're not paying attention.
