NC Utilities Commission
4325 Mail Service Center
Raleigh NC 27699-4300

Docket Nos. EMP-118, Sub 0 and Sub 1
Timbermill Wind

Commission Members:

I am a landowner in the project area. I have been working with this company for over 6 years now and they have an excellent record. I would recommend the company to anyone interested in renewable energy.

The wind turbines will be near our home place and hopefully a turbine or two will end up on our property. The extra income for our farm bottom line will be good for all the farmers participating in the project.

I urge you to approve the application before you. Thank you for the consideration.

Sincerely,

Sylvia Monds
