FILED

JAN 08 2018

Chief Clerk North Carolina Utilities Commission,

Clerk's Office

N.C. Utilities Commission

I am contacting you to express my support for the Wilkinson Solar Facility proposed in Terra Ceia (Docket # EMP 93 Sub-0). I am a land owner, farmer, business owner and lifelong resident of the Terra Ceia community. I am the third generation of my family to live in this community and work this land. I am also a graduate of the Terra Ceia Christian School, have children that attend the school, and have served on its Board.

I have worked with Invenergy on the development of renewable energy projects in Beaufort County for several years. In that time I have found them to be responsive to our concerns and accommodating to our needs as we plan to co-exist on this property. This includes land that I own and have leased into the Wilkinson Solar project. I believe this project represents an opportunity for new jobs and development in our community – an opportunity we should welcome.

Late last year I leased additional land to the Wilkinson Solar project so a portion of the project could be relocated at a further distance from the school. This redesign demonstrates a willingness on Invenergy's part to be responsive to community concerns about the project and, I believe, should alleviate any remaining issues.

I encourage you to approve the amendment to the Wilkinson Solar project.
