Subject: Docket E-100, Sub 180CS

Duke's plan is too complex, would discourage solar investments and fails to account for solar's benefits to the grid. Duke Energy has filed a petition with the NC Utilities Commission to change the rules on net metering, making rooftop solar less accessible at a time when climate scientists say we must be moving full-steam to decarbonize. Please decline Duke's plan. Please lay the foundation for mass production of clean, renewable energy, nearly free energy.
