**Clerk's Office
N.C. Utilities Commission**

Dear North Carolina Utilities Commission,

I support solar and net metering in North Carolina.

Net metering provides real benefits to the grid, utility, and other ratepayers. It drives private investment by giving property owners the option to generate their own electricity while receiving fair credit for the surplus electricity they provide to the grid. Net metering also drives innovation and competition in an otherwise monopolized utility industry.

Please oppose any attempt to undermine these policies. Thank You.

Sincerely,

David Wilson
