JOINT PROPOSED
ORDER APPROVING
TRANSFER, GRANTING
FRANCHISE, APPROVING
RATES, AND REQUIRING
CUSTOMER NOTICE

BY THE COMMISSION: On May 9, 2017, the Public Staff – North Carolina Utilities Commission (“Public Staff”) filed a Petition pursuant to G.S. 62-116(b) and G.S. 62-118(b) requesting that the Commission issue an Order: (1) declaring an emergency; (2) appointing Carolina Water Service, Inc. of North Carolina (“CWSNC” or “Company”) as emergency operator (“EO”); and (3) approving an emergency rate increase on a provisional basis for the water system serving Riverbend Estates in Macon County, North Carolina (Docket No. W-390, Sub 13, the “EO Petition”).

The Public Staff presented the EO Petition to the Commission at the May 15, 2017 Regular Commission Staff Conference. The Public Staff recommended that the Commission issue an order finding that an emergency then

existed due to the abandonment by Riverbend Estates Water System, Inc. (“REWS”) of the water system serving Riverbend Estates, appointing CWSNC the emergency operator, ordering the emergency operator to make installment payments to the Town of Franklin on the purchased water arrearage, and approving an emergency rate increase at the Public Staff’s recommended provisional rates of base monthly charge, zero usage, of \$35.00 and monthly usage charge of \$11.95 per 1,000 gallons.

After carefully considering the May 15, 2017 Regular Commission Staff Conference presentation, the Commission concluded “...that an emergency exists for the Riverbend Estates water system which is in imminent danger of losing adequate water utility service.” As a result, the Commission issued an Order on May 16, 2017, adopting the Public Staff’s recommendations to appoint CWSNC as the emergency operator for the Riverbend Estates water system effective May 16, 2017, approving the Public Staff’s recommended provisional rates, and requiring that a copy of the Order be served on all customers of REWS by CWSNC no later than 15 days from the date of the Order.

On July 10, 2017, the Commission issued an Order Scheduling Show Cause Hearing, as the Commission found that good cause existed to require REWS and Ronald L. Hardegree, the REWS president, to appear before the Commission on a date certain to provide evidence to rebut the prima facie abandonment conclusion reached by the Commission and/or to show cause why sanctions and/or penalties should not be assessed by the Commission against REWS and/or Ronald L. Hardegree for abandoning REWS’ obligation to provide

water utility service in its franchised territory without first securing the Commission's consent as required by G.S. 62-118, and for failing to comply with the Public Utilities Act, the Commission's rules, regulations and orders and the explicit and implicit terms and conditions included in the certificate of public convenience and necessity ("Certificate") which the Commission issued to REWS and/or Ronald L. Hardegree.

The Show Cause Hearing was held as scheduled on Tuesday, August 15, 2017, at the Macon County Courthouse, Franklin, North Carolina. REWS and Ronald Hardegree appeared with their attorney Stuart Sloan. The Public Staff presented the testimony of Public Staff Utilities Engineer Charles Junis, P.E. and public witness Beth Curry. This Show Cause Hearing was adjourned prematurely due to a power outage and was later rescheduled for October 25, 2017, at the Macon County Courthouse, Franklin, North Carolina.

On October 24, 2017, CWSNC and REWS filed an application with the Commission (Docket No. W-390, Sub 14, the "Transfer Application") requesting approval of the transfer of the Riverbend Estates Certificate and water system assets to CWSNC and approval of reduced rates.

The Show Cause Hearing reconvened as scheduled on October 25, 2017. Public witnesses Ronnie Dills and Lynn Kanakry testified; Mr. Dills read a statement by Beth Curry, who had to leave the hearing due to a prior commitment. The Public Staff and Stuart Sloan advised the Commission that REWS, the Public Staff, and CWSNC had reached a verbal settlement agreement, which---once completed---would resolve all the outstanding issues.

The Public Staff, at this October 25, 2017 hearing, advised the Commission and attending customers of the primary settlement agreement provisions, as follows:

a. Pursuant to the terms of the October 24, 2017 Transfer Application, the franchise to operate the Riverbend Estates water system would be transferred to CWSNC, which would then be the utility. REWS at that point would no longer be a regulated public utility.

b. The Asset Purchase Agreement (“APA”) filed with the Transfer Application provides that CWSNC would be acquiring all water system assets, including the five (5) real property parcels at Riverbend Estates that either were part of the water system or are still part of the water system properties.

c. The purchase price in the APA is \$53,821.28. The purchase price will be paid directly by CWSNC to the Town of Franklin to pay the amounts owed to the Town of Franklin as of May 16, 2017, when CWSNC took over as emergency operator. The Public Staff recommended that the purchase price of \$53,821.28 plus up to \$3,000 of Stuart Sloan’s legal fees for the transfer closing should be included in CWSNC’s rate base as part of CWSNC’s uniform statewide system rate base.

d. The Public Staff recommended that the Riverbend Estates customers in the future pay CWSNC’s uniform rates, which were expected at that time to be a \$24.44 monthly base facility charge for no usage, and a commodity charge of \$6.86 per 1,000 gallons.

e. The \$6.86 per 1,000 gallons was the exact amount that the Town of Franklin then charged CWSNC for the purchased bulk water. Riverbend Estates is a bulk water purchase system; all the water is provided by the Town of Franklin. Based on the average monthly per customer usage of 4,200 gallons, the average bill at that time under the new rates would have been \$53.25. Under the emergency operator provisional rates, the average monthly bill for 4,200 gallons was then \$85.19. The proposed new rates would result in a reduction of \$31.94 in the average monthly bill per customer based on usage of 4,200 gallons.

f. The Public Staff recommended that the Commission expedite consideration of the Transfer Application.

g. The Commission-approved rates, which became effective on May 16, 2017, for the emergency operator, CWSNC, were provisional rates subject to refund and audit. The Public Staff committed to conduct an audit of the EO revenues, expenses, and capital costs and to recommend refunds if CWSNC collected more than its authorized costs.

h. The Public Staff, not CWSNC, calculated the provisional rates.

i. The Public Staff pledged, after the Commission approves the transfer and after the closing of the water system and asset transfer, to withdraw its previous recommendation for the \$84,000 fine or penalty that was recommended, based upon the Public Staff's assertion that REWS abandoned the system.

j. The supplemental Public Staff testimony filed by Charles Junis on September 22, 2017 showed that REWS had been overbilling the customers since 2015. Part of the overbilling resulted from REWS' billing higher rates than approved by the Commission for certain months. Additionally, REWS failed to implement the Commission-ordered rate reductions based on the repeal of the gross receipts tax and the reductions in the state corporate income tax rates. These overbillings were extensively presented in Charles Junis' supplemental testimony.

k. The Public Staff stated it planned to calculate the refund due to each customer for the overbillings. The Public Staff stated it would then present the refund numbers to REWS along with the Public Staff's calculations, and if REWS and the Public Staff could agree, then REWS would refund each of the customers the appropriate amount. Once REWS made the required refunds, the Public Staff stated that it would withdraw its recommendation for the \$33,000 penalty which the Public Staff recommended due to REWS charging higher rates without Commission approval.

(See Report of Public Staff, filed January 11, 2018 in Docket No. W-390, Sub 13)

On December 15, 2017, the Public Staff provided REWS a refund summary, including each active customer's name, mailing address, and refund amount including interest at 10%. The refunds, which totaled \$2,615.96, were paid from

the Kenney, Sloan, Van Hook law firm's trust account, and were mailed on December 18, 2017.

On February 22, 2018, the Public Staff filed a Proposed Order Approving the Transfer, Granting Franchise, Approving Rates and Requiring Customer Notice. The Public Staff submitted in its Proposed Order that:

- CWSNC has advised the Public Staff that it revised its applied-for rates to CWSNC's uniform rates, which were approved by the Commission in the Docket No. W-354, Sub 356 Rate Case Order, dated November 8, 2017. This reflected a monthly base charge for no usage of \$24.44, and the commodity charge of \$6.86 per 1,000 gallons; which was the same commodity charge then being applied to CWSNC by the Town of Franklin;
- CWSNC and REWS had advised that documentation for the transfer was ready and that the transfer closing could take place once the Commission approved the transfer, approved the rate reduction, and issued a certificate to CWSNC; and
- There was no need for an additional hearing in Franklin, given the level of customer support of the proposal.

In the Proposed Order, the Public Staff reiterated its recommendation from the January 11, 2018 report, as follows:

- That the Commission as expeditiously as reasonably possible approve the transfer to CWSNC, issue a Certificate to CWSNC, approve the rates of \$24.44 monthly base charge for no usage and

the commodity charge of \$6.86 per 1,000 gallons, and cancel the Certificate previously issued to REWS; all effective upon the filing of a written certification by CWSNC that the transfer closing took place and that the \$53,821.28 purchase price was paid by CWSNC to the Town of Franklin.

- That the Commission approve the inclusion of the \$53,821.28 purchase price plus up to \$3,000 of Stuart Sloan's attorney fees for the transfer closing in CWSNC's rate base.
- That after the filing of CWSNC's closing certification, the Commission close the REWS Show Cause proceeding and not levy either of the Public Staff's previously recommended fines or penalties---which were for \$84,000 and \$33,000, respectively.
- That the Public Staff should audit the emergency operator revenues collected with the provisional rates, as well as the expenses and capital expenditures incurred, and file a report with the Commission within 90 days of the filing of CWSNC's closing certification, with recommendations as to whether there should be customer refunds and the refund amounts, if any.

By letter of counsel dated March 2, 2018, CWSNC wrote to the Commission to (a) provide information and make certain procedural requests on behalf of the Company; (b) facilitate an Order from the Commission allowing immediate rate relief to the customers of Riverbend Estates Water System in Macon County; (c) amend the Company's Application for Transfer and Approval of Rates, filed in

Docket No. W-354, Sub 358, to request approval of the rates contained in the Proposed Order filed on February 22, 2018, by the Public Staff in these dockets; and (d) support and adopt by reference that Proposed Order, which addressed transfer, franchise, rates, and notice. In support of this filing, CWSNC stated that, as Emergency Operator for Riverbend, CWSNC agreed to imposition by the Commission of the rates attached to the Proposed Order filed on February 22, 2018, by the Public Staff in the dockets captioned herein. Specifically, CWSNC agreed to imposition of those rates for bills issued after the date of any Commission Order which substitutes the proposed rates for the provisional rates. These proposed rates were lower than the provisional rates established in the Emergency Operator docket (Docket No. W-390, Sub 13), and early adoption of them by the Commission would bring rate relief to the Riverbend customers. CWSNC filed this notice in the “transfer dockets” (Docket Nos. W-354, Sub 358 and. W-390, Sub 14), to state on the record that:

a. It amends its Application for Transfer to request imposition of the rates contained in Appendix B, pp. 15-16 of the Proposed Order filed on February 22, 2018, by the Public Staff; and

b. It agrees to imposition of the lower rates, contained in Appendix B, pp. 15-16 of the Public Staff’s Proposed Order of February 22, 2018, with no further filing or hearing and with provision of appropriate customer notice.

Finally, CWSNC submitted that: it participated in the preparation of the Proposed Order filed by the Public Staff in Docket Nos. W-354, Sub 358 and W-390, Sub 14; it supported and endorsed that Proposed Order as written,

including the Appendices which address rates and notice; and it adopted the Proposed Order by reference.

By filing of March 7, 2018, the Public Staff and REWS stipulated to agreement with CWSNC's proposal to reduce rates. On March 13, 2018, counsel for CWSNC formally requested approval of the new provisional rates, as agreed upon among CWSNC, REWS and the Public Staff, for bills rendered on or after March 13, 2018. Additionally, the Company requested the Commission to defer taking any action on the transfer application until the Company had performed additional due diligence to investigate easements and other related issues.

On March 13, 2018, in Docket No. W-390, Sub 13 (the EO docket), the Commission concluded that the provisional rates then being charged by the EO to the Riverbend Estates Subdivision customers should be reduced to CWSNC's uniform statewide monthly base charge for zero consumption of \$24.44 (for a meter size of less than one inch) and a usage charge of \$6.86 per 1,000 gallons, which was the same usage charge per 1,000 gallons that the Town of Franklin then charged to CWSNC for the bulk purchased water. Furthermore, the Commission concluded that by a further order of the Commission, the Public Staff should be required to audit the revenues CWSNC has received as EO from customers and all expenses and capital expenditures for the Riverbend water system for the EO period beginning May 16, 2017 through March 13, 2018, and should file with the Commission a report including recommendations as to the amount of revenues from the provisional rates that exceeded the EO's

expenditures, and that the over-collection amounts, if any, should be refunded by CWSNC to each customer.

On the basis of the verified Transfer Application, the evidence presented at the hearings on August 15, 2017 and October 25, 2017, the Public Staff Report, the various filings by CWSNC and the Public Staff, and the records of the Commission, the Commission makes the following:

FINDINGS OF FACT

1. CWSNC has more than 40 years' experience managing and operating water systems in the North Carolina mountains. Currently, CWSNC manages and operates mountain water systems in the following North Carolina counties: Alleghany, Avery, Buncombe, Cherokee, Henderson, Jackson, Madison, Macon, Rutherford, Transylvania, Watauga, and Yancey.

2. The Order Granting Franchise, Granting Partial Rate Increase, and Requiring Customer Notice dated February 26, 2013, in Docket No. W-390, Sub 11, granted a certificate of public convenience and necessity to REWS and a rate increase to include the expenses relating to purchased bulk water from the Town of Franklin.

3. The Riverbend Estates water system currently has approximately 131 metered customers in single-family residential homes.

4. The Riverbend Estates water system is a purchased water system; all water is purchased from the Town of Franklin.

5. CWSNC was appointed EO for the Riverbend Estates water system by Commission Order dated May 16, 2017, in Docket No. W-390, Sub 13. The

balance owed by REWS to the Town of Franklin for bulk water purchases on May 16, 2017, was \$53,821.28.

6. The APA filed with the Transfer Application provides a purchase price of \$53,821.28 for the Riverbend Estates water system, which will be paid directly by CWSNC to the Town of Franklin.

7. The Public Staff has recommended that the \$53,821.28 purchase price, plus up to \$3,000 of REWS attorney Stuart Sloan's fees for the transfer closing, be included in CWSNC's rate base as part of CWSNC's uniform statewide system rate base.

8. As part of its due diligence investigation in this matter, related in particular to the additional obligations associated with the irregular documentation of ownership of REWS' property---including the length of time and expense of additional support of counsel and consultants in the examination and in the regulatory process---CWSNC has, to date, incurred additional due diligence expenditures in the amount of \$47,391.35. CWSNC proposes that its due diligence costs in the amount of \$47,391.35 , as well as any other unrecovered costs associated with the Company's performance of its duties as EO up through the time of its discharge by the Commission (including a return on the accumulated balance), be included in rate base and recovered in the Company's next general rate case as a component of the revenue requirement for the Company's Uniform Water Rate Division. Support for this request is found in the invoices which have been provided to the Public Staff for audit, and in the recognition that assumption

of responsibility for exceptionally-troubled water systems entails cost and risk, for which the “rescuing” utility should be fairly reimbursed.

9. The Public Staff in its EO petition filed on May 9, 2017, recommended the Commission approve for the EO, an emergency rate increase with provisional rates of base monthly charge, zero usage, of \$35.00 and usage charge per 1,000 gallons of \$11.95, which the Commission did approve as provisional rates. Pursuant to subsequent request by CWSNC, rates were lowered for bills issued on or after March 13, 2018, to the then applicable uniform rate for a base monthly charge of \$24.44, and a usage charge of \$6.86 per 1,000 gallons.

10. CWSNC requests Commission approval, effective on the water system transfer closing date, of CWSNC’s current uniform statewide monthly base charge for zero consumption of \$27.53 (set by the Commission in its Order of February 21, 2019, in the Docket No. W-354, Sub 360 rate case) and a commodity charge of \$7.20 per 1,000 gallons, which is the current pass-through rate from the Town of Franklin. The Public Staff recommends approval of the CWSNC requested rates, which remain a significant reduction from the EO provisional rates. The proposed new rates are just and reasonable and are hereby approved effective for service rendered on and after the date of closing of the transfer of the Riverbend Estates water system to CWSNC.

11. REWS has refunded with interest the overbillings of customers as detailed in the supplemental testimony filed by Public Staff Engineer Charles Junis on September 22, 2017, and as calculated by the Public Staff.

12. There is no need for another hearing in Franklin, North Carolina. The customers attending the October 25, 2017 hearing expressed approval for the Commission approving the transfer to CWSNC and the rate reduction.

13. It is reasonable and prudent to include in CWSNC's statewide uniform rate base the \$53,821.28 purchase price, plus up to \$3,000 of Stuart Sloan's attorney fees for the transfer closing.

14. It is reasonable and appropriate for the Commission to approve CWSNC's request that the Company's due diligence costs in the amount of \$47,391.35, as well as any other unrecovered costs associated with the Company's performance of its duties as EO up through the time of its discharge by the Commission (including a return on the accumulated balance), be included in rate base and recovered in the Company's next general rate case as a component of the revenue requirement for the Company's Uniform Water Rate Division.

15. The Public Staff recommended that a \$10,000 bond be posted for the Riverbend Estates water system. CWSNC has \$3,730,000 of bonds posted with the Commission. Of this amount, \$3,690,000 of the bond amount is assigned to specific subdivisions, and \$40,000 of the bond amount is unassigned.

16. CWSNC has the technical, managerial, operational, and financial capacity to provide water utility service in this service area.

CONCLUSIONS

Based upon the foregoing, and the recommendations of the Public Staff, the Commission concludes that the transfer of the Riverbend Estates water system

and franchise to CWSNC should be approved; that the \$53,821.28 purchase price plus up to \$3,000 of the REWS attorney's transfer closing fees should be included in CWSNC's statewide uniform rate base as a plant acquisition adjustment; that the rates proposed by CWSNC should be approved; and that \$10,000 of CWSNC's unassigned bond should be assigned to this system.

In addition, the Commission finds good cause to approve the Company's request to recover its due diligence costs in the amount of \$47,391.35, as well as any other unrecovered costs associated with the Company's performance of its duties as EO up through the time of its discharge by the Commission (including a return on the accumulated balance), included in rate base in the Company's next general rate case as a component of the revenue requirement for the Company's Uniform Water Rate Division.

IT IS, THEREFORE, ORDERED as follows:

1. That \$10,000 of the CWSNC \$40,000 unassigned bond shall be assigned to Riverbend Estates Subdivision. The remaining unassigned bond surety shall be \$30,000.
2. That CWSNC is granted a Certificate of Public Convenience and Necessity to provide water utility service in Riverbend Estates Subdivision in Macon County, North Carolina, effective upon the closing of the transfer of the water utility system assets to CWSNC.
3. That Appendix A constitutes the Certificate of Public Convenience and Necessity.

4. That the Schedule of Rates attached hereto as Appendix B is approved for water utility service in Riverbend Estates Subdivision, effective for service rendered on and after the date of closing of the transfer of the water utility system assets to CWSNC.

5. That the Riverbend Estates water system shall not be charged the Water System Improvement Charge until being included in CWSNC's next general rate case.

6. That the \$53,821.28 purchase price paid to the Town of Franklin, plus up to \$3,000 of REWS attorney's transfer closing fees, shall be included in CWSNC's rate base.

7. That the due diligence costs in the amount of \$47,391.35, as well as any other reasonable and prudently-incurred unrecovered costs associated with CWSNC's performance of its duties as EO up through the time of its discharged by the Commission (including a return on the accumulated balance) shall be included in rate base to be recovered in the Company's next general rate case as a component of the revenue requirement for the Uniform Water Rate Division.

8. That upon the Commission's receipt of CWSNC's written notification that the closing is completed, the Public Staff's recommended \$84,000 fine or penalty for the Public Staff's assertion that REWS abandoned the system, and also the Public Staff's recommended \$33,000 penalty due to REWS charging higher rates without Commission approval, are withdrawn by the Public Staff and, thus, no Commission-approved fines or penalties will be assessed in this matter.

9. That the Public Staff shall audit the revenues CWSNC received as EO from customers and all expenses and capital expenditures (including due diligence costs) for the Riverbend Estates water system for the EO period of May 16, 2017, through the transfer closing date, and file with the Commission within 90 days of the closing date, the Public Staff's report thereon, reconciling these revenues and expenses.

10. That CWSNC shall provide written notification to the Commission within three days after the closing that the transfer has been completed and the date of such closing.

11. That the Certificate of Public Convenience and Necessity to provide water utility service granted REWS is cancelled effective on the date which CWSNC files with the Commission written notification that the closing of the transfer of the system has been completed.

12. That a copy of the Notice to Customers, attached hereto as Appendix C, shall be mailed with sufficient postage or hand delivered by CWSNC to all its affected customers in the Riverbend Estates Subdivision within ten (10) business days after the date of the closing of the transfer of the water system to CWSNC.

13. That CWSNC shall submit to the Commission the attached Certificate of Service, properly signed and notarized, not later than fifteen (15) days after the closing of the transfer to CWSNC.

ISSUED BY ORDER OF THE COMMISSION.

SCHEDULE OF RATES

for

CAROLINA WATER SERVICE, INC. OF NORTH CAROLINA

for providing water utility service

in

RIVERBEND ESTATES SUBDIVISION

WATER RATES AND CHARGES

Monthly Metered Water Service (Residential and Commercial):

Base Facility Charge (based on meter size with zero usage)

< 1" meter	\$ 27.53
1" meter	\$ 68.83
1 1/2" meter	\$ 137.65
2" meter	\$ 220.24
3" meter	\$ 412.95
4" meter	\$ 688.25
6" meter	\$1,376.50

Usage Charge:

Purchased Water for Resale, per 1,000 gallons:

<u>Service Area</u>	<u>Bulk Provider</u>	
Riverbend Estates	Town of Franklin	\$ 7.20

Connection Charge: \$ 1,000.00

Meter Testing Fee: ^{1/} \$ 20.00

New Water Customer Charge: \$ 27.00

Reconnection Charge: ^{2/}

If water service is cut off by utility for good cause	\$ 27.00
If water service is discontinued at customer's request	\$ 27.00

APPENDIX B
PAGE 2 OF 2Meter Fee:

For <1" meter	\$ 50.00
For meters 1" or larger	Actual Cost

Irrigation Meter Installation:

Actual Cost

MISCELLANEOUS UTILITY MATTERS

<u>Charge for processing NSF Checks:</u>	\$ 25.00
<u>Bills Due:</u>	On billing date
<u>Bills Past Due:</u>	21 days after billing date
<u>Billing Frequency:</u>	Bills shall be rendered monthly in all service areas
<u>Finance Charge for Late Payment:</u>	1% per month will be applied to the unpaid balance of all bills still past due 25 days after billing date.

Notes:

^{1/} If a customer requests a test of a water meter more frequently than once in a 24-month period, the Company will collect a \$20.00 service charge to defray the cost of the test. If the meter is found to register more than the prescribed accuracy limits, the meter testing charge will be waived. If the meter is found to register accurately or below prescribed accuracy limits, the charge shall be retained by the Company. Regardless of the test results, customers may request a meter test once in a 24-month period without charge.

^{2/} Customers who request to be reconnected within nine months of disconnection at the same address shall be charged the base facility charge for the service period they were disconnected.

Issued in Accordance with Authority Granted by the North Carolina Utilities Commission in Docket No. W-354, Sub 358, on this the ____ day of _____, 2019.

MISCELLANEOUS UTILITY MATTERS

<u>Charge for processing NSF Checks:</u>	\$ 25.00
--	----------

<u>Bills Due:</u>	On billing date
-------------------	-----------------

<u>Bills Past Due:</u>	21 days after billing date
------------------------	----------------------------

<u>Billing Frequency:</u>	Bills shall be rendered monthly in all service areas
---------------------------	--

<u>Finance Charge for Late Payment:</u>	1% per month will be applied to the unpaid balance of all bills still past due 25 days after billing date.
---	--

Notes:

^{1/} If a customer requests a test of a water meter more frequently than once in a 24-month period, the Company will collect a \$20.00 service charge to defray the cost of the test. If the meter is found to register in excess of the prescribed accuracy limits, the meter testing charge will be waived. If the meter is found to register accurately or below prescribed accuracy limits, the charge shall be retained by the Company. Regardless of the test results, customers may request a meter test once in a 24-month period without charge.

^{2/} Customers who request to be reconnected within nine months of disconnection at the same address shall be charged the base facility charge for the service period they were disconnected.

The approved rates are effective for water utility service rendered on and after _____, 2019.

Provisional Rates and Public Staff Audit

The Public Staff, in its emergency operator petition filed on May 9, 2017, in Docket No. W-390, Sub 13, recommended that the Commission approve for CWSNC as emergency operator (EO), an emergency rate increase with provisional rates for base monthly charge, zero usage, of \$35.00 and usage charge per 1,000 gallons of \$11.95, which the Commission did approve as provisional rates. Pursuant to a subsequent request by CWSNC, rates were lowered for bills issued on or after March 13, 2018, to the then applicable uniform rate for a base monthly charge of \$24.44, zero usage, and a usage charge of \$6.86 per 1,000 gallons.

The Public Staff has been required by the Commission to audit the revenues CWSNC received as emergency operator from customers and all expenses and capital expenditures (including due diligence costs) for Riverbend for the emergency operator period of May 16, 2017, through the closing date of the system transfer to CWSNC. Within 90 days of the closing date, the Public Staff will file with the Commission an audit report reconciling these revenues and expenses.

CERTIFICATE OF SERVICE

I, _____, mailed with sufficient postage or hand delivered to all affected customers the attached Notice to Customers issued by the North Carolina Utilities Commission in Docket Nos. W-390, Sub 14 and W-354, Sub 358, and the Notice was mailed or hand delivered by the date specified in the Order.

This the _____ day of _____, 2019.
