Timeline of NLR Reset as of September 1, 2023

Prior to July 1, 2022

100 % of kWh savings included in base rate case billing determinants.

NLRs are set to zero in EE Rider.

July 1, 2022 – June 30, 2023

Actual kWh savings
recognized by customer
participating in EE measures
included in base rate case
billing determinants.
Actual kWh savings removed
from EE Rider.
Equates to approximately 50%
of NLRs

July 1, 2023 – August 31, 2023

Measures installed outside of the base rate case test year and therefore no kWh savings are reflected in the billing determinants used to set rates.

100% of NLRs included in the EE Rider.
