Raleigh, NC 27699-4325

To whom it may concern,

I am writing as a request to fill the Consumer/Environmental Advocacy board seat of the NC GreenPower Board of Directors.

As an environmental science teacher, I helped with the 2020 Solar + Schools grant for J. H. Rose High School in Greenville, NC. With the grant, we were able to receive a 5 KW photovoltaic array for our school which I regularly utilized as a tool for educating our students in renewable energy and sustainability. I am still with Pitt County Schools, but I currently serve as Dean of Students and STEM Coordinator for Northwest Elementary School. Additionally, I am the current Burroughs Wellcome Fund Northeast Region Teacher of the Year. In that capacity, I help connect teachers from the 7 districts within Northeast NC along with my regional peers across the state. As a potential Board Member, it is my hope that I will continue to bridge NC education and environmental advocacy so that our children can stay connected to the natural world and the resources that surround them every day.

Thank you for your consideration!

Clinton Todd
