Colonial stated that its 12.0-MW_{ac} solar photovoltaic (PV) facility will become operational in December, 2015.

The filing included certified attestations that: 1) the facility will be in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources; 2) the facility will be operated as a new renewable energy facility; 3) Colonial will not remarket or otherwise resell any renewable energy certificates (RECs) sold to an electric power supplier to comply with G.S. 62-133.8; and 4) Colonial will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers.

On October 29, 2015, the Public Staff filed the recommendation required by Commission Rule R8-66(e) stating that Colonial's registration statement as a new renewable energy facility should be considered to be complete. No other party made a filing with respect to these issues.
