Re: Docket No. EMP-93, Sub 0
Wilkinson Solar LLC – CPCN Site Layout Amendment

Dear Chief Clerk:

An application for a certificate of public convenience and necessity (“CPCN”) for a merchant plant solar facility up to a 74-MW_{AC} for Wilkinson Solar LLC (Wilkinson) was filed on March 13, 2017 (the “Application”). Attached to the Application as “Wilkinson Solar LLC Application Addendum 5” was a proposed site layout (the “Original Layout”). With this letter, Wilkinson is amending its Application to reflect the following changes: (1) there will be no solar panels placed on the Respass parcel; and, (2) the project substation and the battery storage facilities have been relocated to a southwestern portion of the project footprint. The project boundary of the solar facility has not changed. Enclosed and marked as “Wilkinson Solar LLC - Amended Application Addendum” is an amended proposed layout (the “Amended Layout”). The Amended Layout still accommodates the 74-MW_{AC} capacity contemplated in the Application.

Because no new land has been added to the project boundary, no further State Environmental Clearinghouse review or publication of notice is required. Therefore, we request the Commission enter an Order issuing a CPCN to Wilkinson for the 74-MW_{AC} capacity Amended Layout.

Please let me know if you have any questions.

Sincerely,

/s/ Henry C. Campen, Jr.
