Subject: Docket E-100, Sub 83: Net Metering

FILED

JUN 18 2014

Dear Chief Clerk of the Commission,

I do not support changes to net metering that will undermine rooftop solar in North Carolina. We invested in rooftop solar panels several years ago and we would like to continue to benefit from them. Please oppose changes to net metering that will undermine the purpose and benefits of rooftop solar panels for the individual consumer and the environment.

Thank you,
Karey Harwood
