BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of
Joint Application of Duke Energy Progress, LLC and North Carolina
Electric Membership Corporation for a Certificate of Public
Convenience and Necessity to Construct a 1,360 MW Natural
Gas-Fueled Combined Cycle Electric Generating Facility in Person
County, North Carolina

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that pursuant to the provisions of Sections 62-82
and 62-110.1 of the General Statutes of North Carolina and North Carolina
Utilities Commission Rule R8-61, Duke Energy Progress, LLC (DEP) and North Carolina
Electric Membership Corporation (NCEMC), (together with DEP, Joint Applicants), filed
an application for a certificate of public convenience and necessity to construct a
1,360 MW natural gas-fueled combined cycle electric generating facility in Person
County, North Carolina (Application). In summary, DEP and NCEMC state that the
facility will be located at the site of DEP's existing Roxboro Plant and will consist of an
approximately 1,360 MW combined cycle gas turbine (CC) facility. The Joint Applicants
state that the CC (Facility) will be placed into service by January 1, 2029, with DEP's
owning approximately 1,135 MW of the capacity, and NCEMC's owning approximately
225 MW of the capacity. The Facility, along with the Roxboro coal-fired units 2 and
3, will be known as the Person County Energy Complex. The Application indicates
that only minimal network upgrades are necessary to interconnect the replacement
generation of the two units, and an interconnection request has been submitted
for the incremental capacity of the Facility. The Application states that DEP has
contracted for sufficient firm interstate transportation natural gas capacity to support
the demand requirements for the Facility that is incremental to DEP's existing CC
fleet requirements. The Application further states that DEP has contracted for firm
intrastate transportation rights with Public Service Company of North Carolina, Inc.
The testimony accompanying the Application discusses DEP's and NCEMC's need for
and cost of the Facility. The total projected cost of the project was filed under seal as
a confidential trade secret.

parties' witnesses and for cross-examination of expert witnesses for DEP, NCEMC, the
Public Staff, and any other intervenors will be held in Raleigh immediately following

following the hearing in Docket No. E-100, Sub 190, which is scheduled to begin at

begins prior to August 9, 2024, and has not concluded by August 9, 2024, the hearing
will resume at 2:00 p.m. on Tuesday, September 3, 2024, continuing as necessary
until conclusion. The hearing will be held in Commission Hearing Room 2115, Second
