

SOLAR PANEL FARM IN HOT SPRINGS TOWN LIMITED

Petition to the North Carolina Utilities Commission

MAR 05 2020

Clerk's Office

Duke Energy is planning to construct and operate a solar panel farm within the town limits of Hot Springs. Due to low newspaper subscription rates and limited access to the internet, our community was not aware of this project and both our public and evidentiary hearings were cancelled. We have grave concerns about the location of this project, our public safety, the impact of this project, and how it will be managed. We request that the Utilities Commission delay any further development and construction on this project until we are granted both a public hearing and an evidentiary hearing.

*This petition is posted at Tobacco Road, Sara Jo's, Artisan Gallery, and Bluff Outfitters.
